

# 3 Card Reading for New Moon

Use your favorite oracle or tarot deck  
or collage cards if you have them

*"I AM a Powerful Visionary. I tap Limitless Possibility within the Supportive holding of Earth Mother and the Expansive Power of the Stars, unified and energized through the Love and Truth in my Heart. I AM ready for a New Beginning"*

1. Where am I NOW in the Sacred Flow of my Life ?
2. How do I best align my Personal Will with Divine Will at present and in the upcoming cycle? What do I wish to call into my life?
3. What bridges 1 and 2?  
What do I need to remember, incorporate, let go of, utilize etc. What does my Heart want me to know?

## 3 Card Reading for New Moon

This has been such a powerful tool for me each New Moon for awhile now. Please feel free to use the affirmation I've written on the first page or formulate your own.

Card 1 is drawn on the Waning day before the Exact New Moon  
Card 2 drawn on New Moon Exact  
Card 3 drawn on the Waxing day after

A Few suggestions ::

Take the time to journal each day and create your own ceremony , whatever feels supportive and right for you. If you are using cards rich in imagery and color drink that in. Oftentimes the imagery speaks louder than words can. Look at all of the cards together. What Story do they tell? Are you prompted to write it? Can you imagine living it? Trust that even if the cards are not speaking to you in the moment, they are doing their 'work' in the subtle realms. Be open to Surprise!

Place the cards where they are readily visible until the next New Moon Cycle; on your Alter or other Sacred place. Track your own feelings and movement through the cycles. You may wish to have a special Journal just for this. Feel into the interconnectedness , reflect and create a ceremony /ritual of your own choosing at the following Full Moon time. I love drawing cards for the 3 Full Moon Days , not defining them by questions rather synthesizing the energies to illuminate the 3 together, by writing a phase or affirmation or creating a new image from the combined imagery. Most importantly have fun with this – create your time in ways that are nourishing , and that you look forward to...
